### „Studienbegleitende Fachsprachenkurse“ - Subject-related Courses

The following courses are for students with **advanced knowledge** in the German language only. The language requirement for each course is mentioned in the overview under the heading “prerequisite”.

#### Literature Course „Literaturkurs“

In each class students will deal with short passages from the novel chosen for the semester. The students will first discuss the grammar and vocabulary to ensure a fair understanding of the text in order to prepare a discussion of its context and themes. Analyzing the short passages will allow students to understand and interpret the text as a whole from a literary perspective. They will also deal with the historical context and setting in order to practice a methodical analysis of the text.

This four-hours course reaches out to students of all majors who would like to read the most important texts of German Philosophy in their original language. The course intends to provide students with the necessary methodological skills.

Given the difficulty of German philosophical texts, regarding both the contents as well as the language used, each class-meeting will focus on a short paragraph of text only. Students will first discuss the linguistic difficulties, and then analyze the meaning of the provided text. Grasping all aspects of a text will also enable the course participants to express their insights both orally and in writing.

The texts which are read during the course will be set in a historical context and students will try to trace some samples in German Literature or Jurisprudence.

## Creative Writing 1 „Kreatives Schreiben 1“ Martin Grzimek

Prerequisite:	Language Level - <i>Intermediate 1</i> (B1)
Date and time:	Monday 09:00 – 12:30 a.m. (4 SWS)
Requirements:	Credits awarded via the “heiCO” online portal: 8 ECTS with a grade for regular attendance, active participation and a completed writing task; 4 ECTS without a grade for regular attendance and active participation, without without completed writing task.

In the course "Creative Writing 1" we will **read** simple texts - for example short stories, poems about nature, texts with pictures. But the focus is on **producing** our own texts: The description of an object, a situation, an action, an experience, a beautiful memory. We want to **play** with words and learn to describe our own **feelings**. If the right word for a thing or feeling is missing, we will look for it **together**. In the course, all "creative" texts are also **read out** and **discussed**. The course "Creative Writing 1" is not about assessment for "correct" German - it is about the **commitment** of the participants.

There are three rules for **successful participation** in the course:

1. continuous attendance;
2. participation in the course lessons;
3. send all assignments in writing by e-mail to the course instructor.

The two **main objectives** of the course are:

1. learning and writing - not because you have to, but because you enjoy it;
2. to lose the fear of the foreign language!

**Creative Writing 2 „Kreatives Schreiben 2“****Martin Grzimek**

Prerequisite:	Language Level - <i>Intermediate 2</i> (B2) or <i>Advanced</i> (C1)
Date and time:	Monday 01:15 – 04:30 p.m. (4 SWS)
Requirements:	Credits awarded via the “heiCO” online portal: 8 ECTS with a grade for regular attendance, active participation and a completed writing task; 4 ECTS without a grade for regular attendance and active participation, without completed writing task.

“Creativity and discipline” go together like “fun and work” or “fantasy and logic”.

You cannot have one without the other. This is why students should not only learn to *use* language, but also learn to play with words and shape and mold them into unique expressions. Narration, writing poetry and reporting – these different forms of expression not only have a long tradition, they are also tools to experience and comprehend the world. In the center stands the individual who is able to express his feelings, emotions, sensual impressions, dreams, fantasies and ideas in a foreign language. The goal of the course “Creative Writing” is to practice these abilities. Students will develop greater self-confidence and sensibility towards those around them as well as their surroundings, including the creative potential of language.

**German for Business „Fachsprache Wirtschaft“****Rainer Ruhm**

Prerequisite:	Language Level – <i>Advanced</i> (C1, B2 upon consultation with instructor)
Date and time:	Tuesday / Thursday 03:30 – 05:00 p.m. (4 SWS)
Requirements:	Credits awarded via the “heiCO” online portal: 8 ECTS with a grade for regular attendance, active participation, and a passed exam; 4 ECTS without a grade for regular attendance and active participation, without a passed exam.

This course is intended for foreign students who wish to gain knowledge of economic terminology. Through the use of economic-related texts and articles from newspapers and magazines students will learn basic economic terminology, work with theoretical concepts and discuss current economic problems. Students will improve their linguistic abilities relevant to economic terminology as well as practise skills such as text analysis, listening comprehension, verbalisation of graphs/diagrams etc. while dealing with themes such as globalization, the environment and social market economics (among others).

Alemania, Niemcy, Tyskland, Germany - many names for one country. The history of Germany is a grand narrative of diversity and change. For centuries, the question has been asked again and again: Where is Germany? What is Germany?

So let's go on an exciting journey from antiquity to the present and try to find suitable answers! In doing so, we will experience Germany in its contrasts: the land of a thousand castles, of poets and thinkers, of reformers and ingenious inventors - but also of the greatest horror in human history.

But we don't just talk about emperors, war and the church. German traditions and everyday history also have their place in this course. In addition, we will be "on the road" a few times and trace German history live during walks through the old town of Heidelberg.

The course is aimed at students with an advanced knowledge of German. Active participation is a prerequisite. The lecturer is open to suggestions and requests from students.

Mandatory day excursion on Thursday, May 14, 2026 – The destination of the excursion will be announced at the beginning of the course.
